-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1623

Claims 1-18 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for saponins being anticancer agents, does not reasonably provide enablement for saponins being useful in preventing cancer. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to use the invention commensurate in scope with these claims. The term "preventing" encompasses treating healthy host and preventing said host from ever getting cancer. Since prevention of cancer is not well known in the art and since the applicant has failed to provide any evidence that saponins are useful in preventing cancer, there is a good reason to doubt the usefulness of saponins in prevention of cancer.

Claims 1-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is not clear if claims 1-18 are compound or composition claims.

It is not clear what is encompassed by subfractions of claims 5-8. Improper markush terminology has been used in claim 9. Also, a period is missing at the end of claim 9.

Claims 10-13 are improper in that said claims contain more than one period.

The terminology "but not limited" renders claim 10-17 indefinite because the scope of the invention cannot be determined.

There is no antecedent basis in claim 1 for "closure" and "mammal" in claim 18.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-18 are rejected under 35 U.S.C. 102(b) as being anticipated by Kensil et al (U.S. Patent No. 5,057,540), Kensil et al (U.S. Patent No. 5,443,829), Estrada et al (U.S. Patent No. 5,597,807), Estrada et al (U.S. Patent No. 5,688,772) or Kensil (U.S. Patent No. 6,231,859).

Each of Kensil et al, Estrada et al and Kensil discloses saponins. Further, note that Kensil et al'829 (column 17, lines 35-40) and Estrada et al'807 (column 6, lines 57-65) discloses saponins in combination with anticancer agents. The claimed compounds and compositions are anticipated by the cited art.
